

THE KEY STAGE 3 OUTSTANDING ACHIEVEMENT AWARD

This award goes to a young lady whose work ethic is unquestioned and inexhaustible. Staff are frequently impressed by her commitment to her studies and her warm nature.

However, this student's most noticeable achievements are outside of school. She is one of the top downhill race skiers in the country for her age and has travelled to France this year to compete in the Scottish championships and came 3rd overall after only a weeks training. It is worth noting that she competes against students from private schools, a lot of them with over 4 months training under their belts. At her most recent regional event she came first overall across all age groups from over 60 female skiers.

What's even more impressive is she goes about these achievements in a modest, unassuming way which makes her very popular amongst students and staff at Monk's Walk.
